Dear Defense Industry Stakeholders;

**The sixth edition of the Boran Sniper Competition**, which has been going on for five years, being improved each time, will be held at the **Remzi Kızılsu Shooting Range, Foça/İzmir**, between **11-17 November 2024**, for the first time with the participation of foreign participants and companies, under the organization and coordination of Foça Gendarmerie Schools Command and JAVDESTUR, the brand of the Gendarmerie Public Order Foundation Support Company.

We want to revitalize the operational area in a competition format in order to bring together the stakeholders of the sector and develop local/national capabilities in the organization to be held.

As you can see the details in the file, we would like to see your support in a competition where all weapons and equipment included in the sniper concept will be seen, as well as public security and military capabilities, including private security, will be exhibited.

We will be happy to see the competitors and stakeholders who provide direct or indirect products/services to the defense industry between **11-17 November 2024**.

Regards;

On Behalf of the Organizing Committee

**Major General Yusuf Ziyaddin CAVLAK**
